To use the service, you must specify a username. This is the username that you will use to dial-up to our service and it will be your primary email address – the email address that your billing notifications and other important SDC notices will be sent to. For example, if you want your username to be “bob”, your email address will be “bob@sdc.org”.

Usernames can only be lowercase, alphanumeric (letters & numbers), must start with a letter, and cannot be longer than 20 characters. If the username you request is already in use you will be notified so you can make another choice.

Passwords can be any length and can consist of any key you can enter on the keyboard. To help keep your account secure we require that passwords be at least 6 characters, and must be a combination of letters, numbers, or symbols. For example, “bird” is not a valid password, but “b1rd\_#” is.
